## Lefelau yn y Gymuned

---

Blwyddyn ers dechrau'r pandemig.

Mae lefelau'r coronafeirws wedi bod yn lleihau ar draws gogledd Cymru dros y ddeufis diwethaf.

Fodd bynnag, dros yr wythnosau diweddar, gwelwyd cynnydd ar Ynys Môn ac amrywiaeth mewn rhai siroedd eraill.

## Community Levels

---

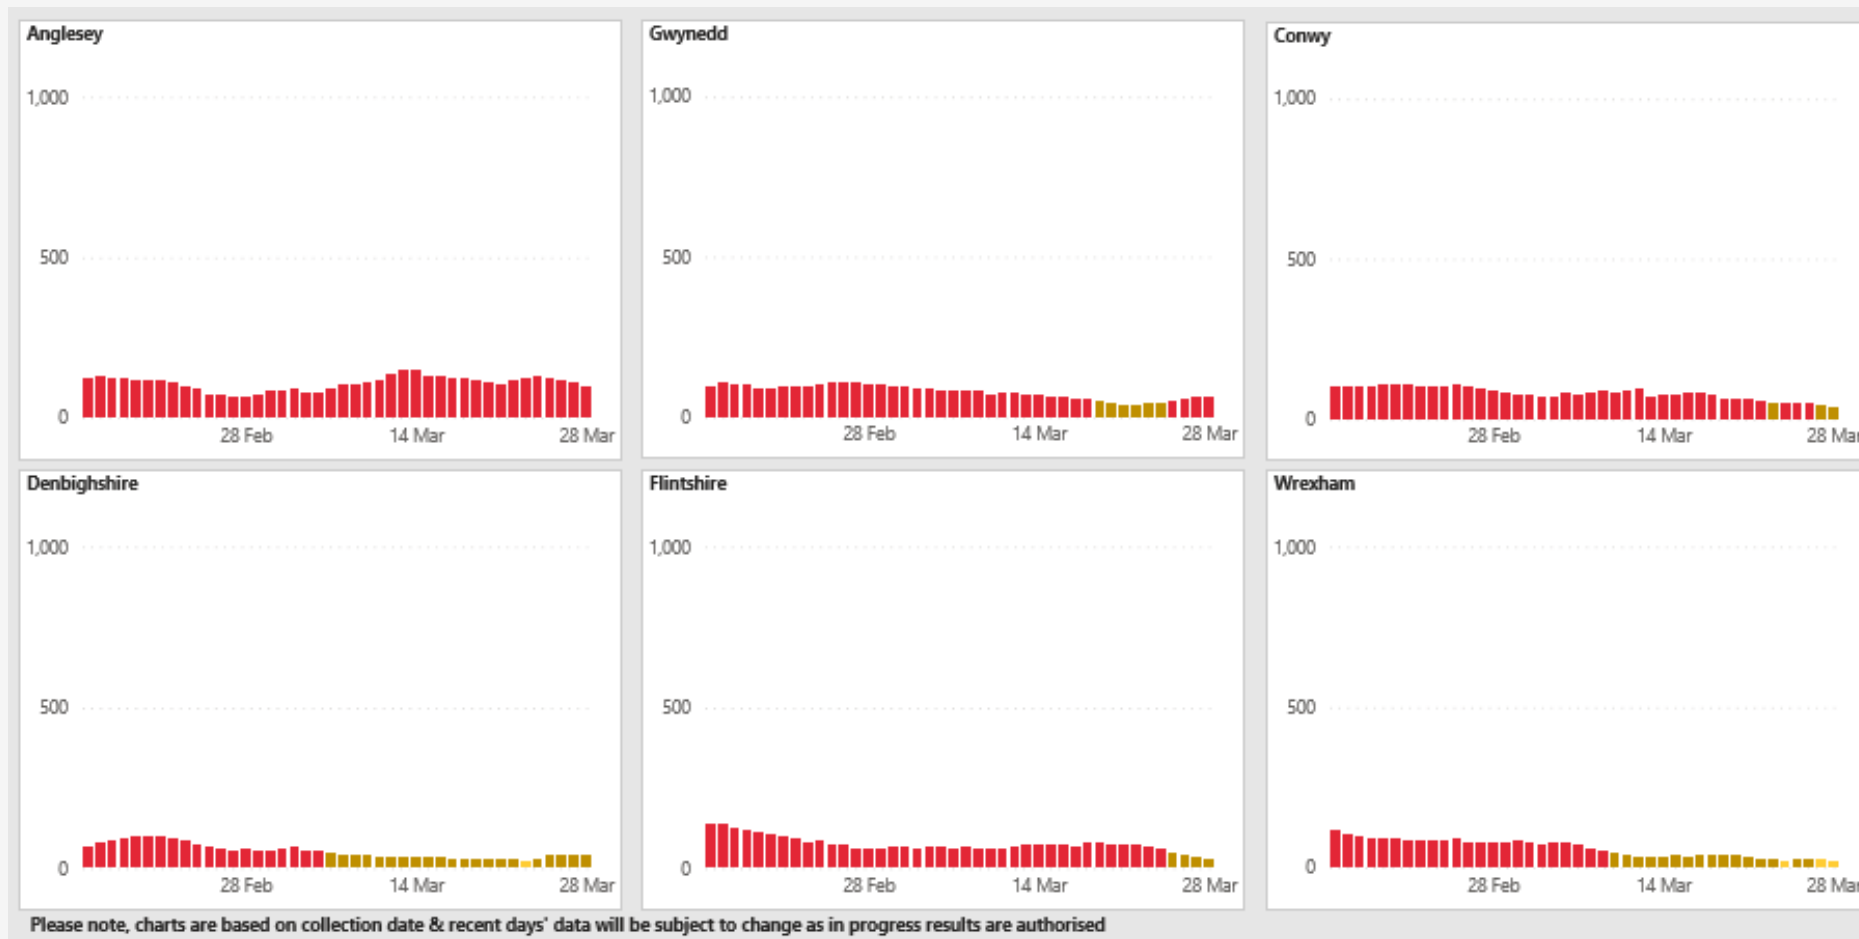

One year since the commencement of the pandemic.

Coronavirus levels have been reducing across north Wales during the last 2 months.

However, recent weeks have seen an increase for Anglesey and some variation in other counties.

## Brechlynnau – symud ymlaen

### Cyflenwadau o'r brechlyn:

Mae'n parhau i fod yn amgylchedd hynod o heriol i bawb, ac rydym yn ddiolchgar am y ddealltwriaeth a'r gefnogaeth a ddangoswyd gan aelodau o gymuned gogledd Cymru.

Mae Llywodraeth Cymru yn dal yn hyderus y bydd gan Gymru ddigon o frechlynnau i fodloni carreg milltir 2 erbyn canol mis Ebrill, a phob oedolyn erbyn diwedd mis Gorffennaf.

## Vaccinations – going forwards

### Vaccine supplies:

Continues to be an extremely challenging environment for everyone, and we are grateful for the understanding and support that members of the north Wales community have shown.

WG have continued confidence that Wales will have sufficient vaccines to meet milestone 2 in mid April, and all adults by the end of July.

## Brechlynnau – symud ymlaen
