# NORTH WALES AUDIOLOGY SERVICE PATIENT NEWSLETTER

Winter 2024

## HIGHLIGHT

Audiology teams across Betsi Cadwaladr University Health Board have come together to create the first Audiology Vehicle in Wales which will provide high quality NHS care to rural communities in North Wales, improving outreach and complementing the existing service in local hospitals.

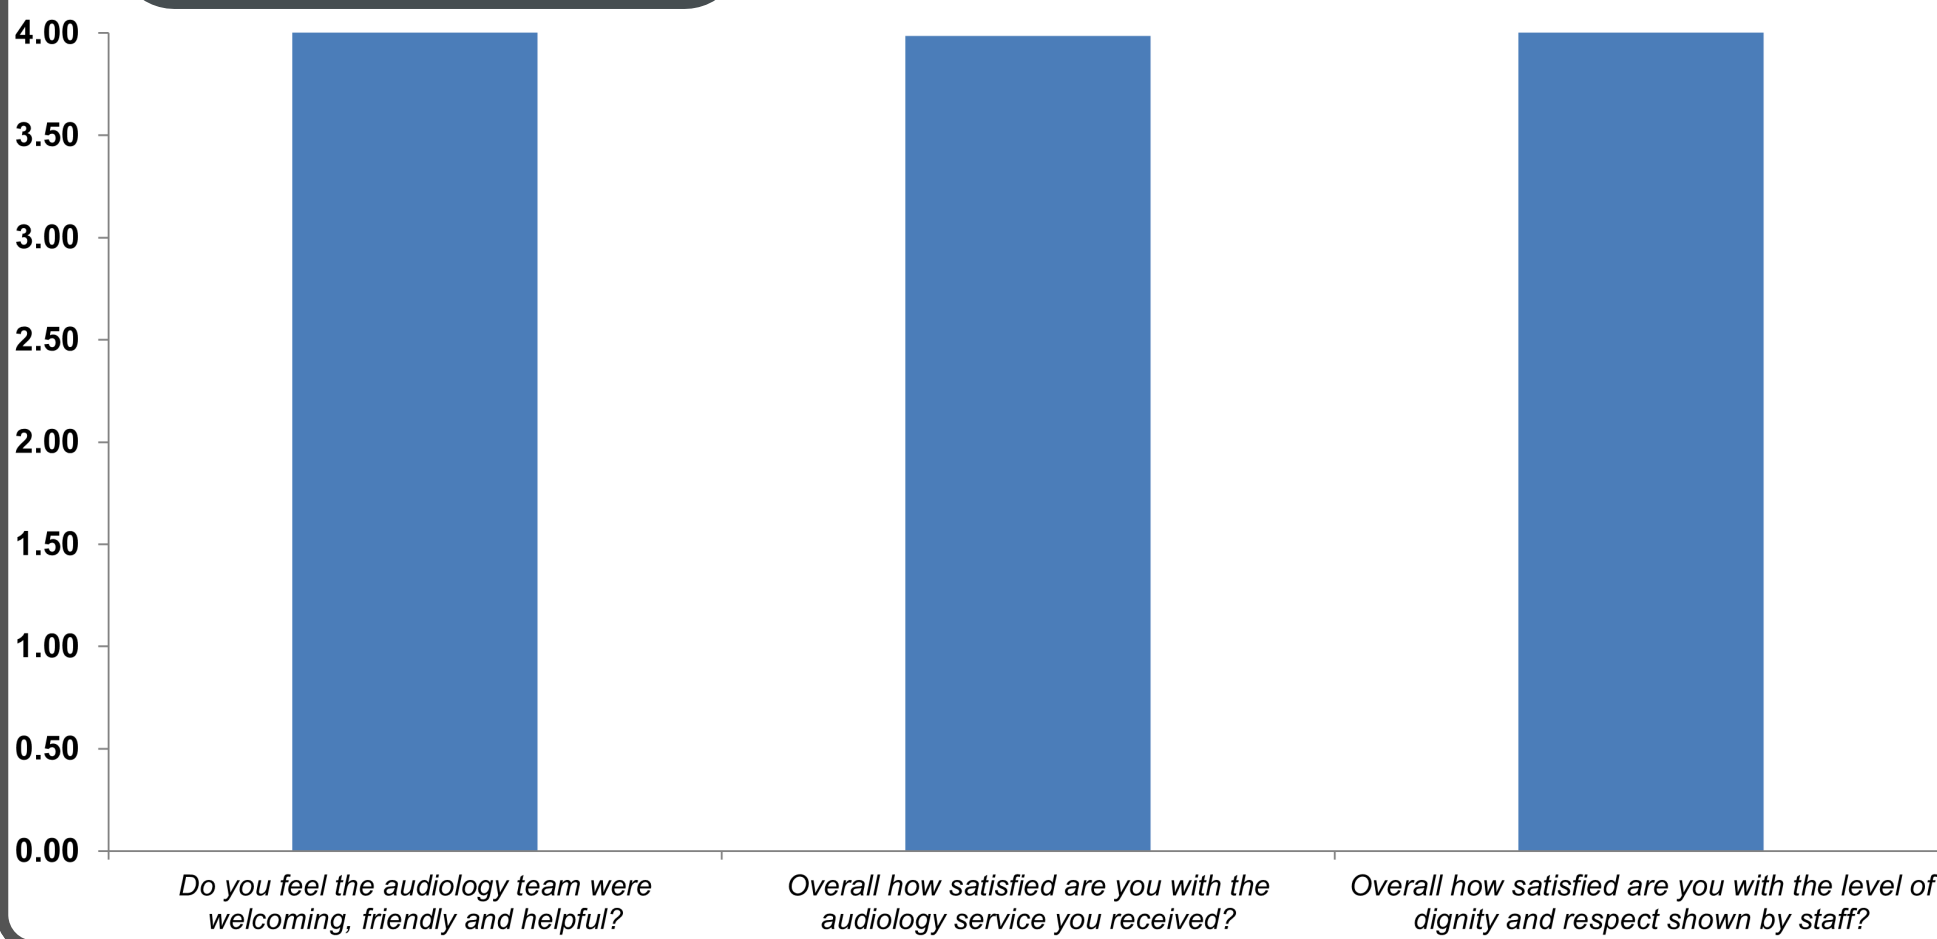

The project, which is completely charity-funded, has only been possible thanks to funding from Awyr Las: The North Wales NHS Charity and NHS Charities Together.

This brand new service will operate across North Wales complementing the existing network of fixed sites across the region, offering improved access to high quality adult Audiology services, closer to people's homes, the Health Board's Audiology service is always "Hear to Help".

“  
Hear to Help
